

### **Important information for overnight stabling at Valinor:**

Overnight stalls are located in one of our barns. They are convenient to the competition area, and have all the amenities you would hope for. A restroom, water, cross ties etc. However it is difficult to reach this area with a horse trailer, so we will use a shuttle from the main parking field. When you arrive please pull into the main parking field. We will meet you there and will shuttle the necessary supplies to the barn while you lead your horse. Once your horse is settled you can unhitch and park your trailer in the parking field. There is parking available close to the stabling area for your truck. Thank you and we hope you enjoy our event!
